

Profile

UCS is at the forefront of consulting for the public sector—providing business process and technology solutions for the Department of Defense (DoD) and federal civilian agencies.

Our IT management services support federal focused initiatives throughout the project life cycle to deliver tangible results and value creation.

Today, as government organizations face aging information systems, shrinking IT budgets, and evolving regulatory standards, there is an increasing need for seamless integration, improved efficiency, and greater transparency across the enterprise. **UCS can help.**

Known for our delivery and domain expertise, we have a successful track record of flexible solutions built upon unparalleled industry knowledge and technical insight. We understand the government landscape, and we blend best-in-class business and technology capabilities to help you address these challenges and achieve your mission priorities.

Services

At UCS, we help you define and meet your goals through strategic visioning and technology innovation—delivering value-added results needed to execute your vision. Supporting the full spectrum of business process and information technology, our strategic services include:

- ◆ **E-business**

- ◆ **Systems Integration**
- ◆ **IT Management & Infrastructure**
- ◆ **Data Warehousing and Decision Support Systems**

Capabilities

We understand our clients' goals and our integrated solutions can be rapidly configured to meet specific requirements—ensuring delivery on time and within budget. Our focused areas of expertise include:

- ◆ **DoD Acquisition, Technology, and Logistics**
- ◆ **Federal & DoD Financial Management Solutions**
- ◆ **Systems Development Life Cycle**
- ◆ **Independent Verification & Validation (IV&V)**
- ◆ **Enterprise Architecture**

Why UCS

UCS is a trusted business partner that understands the business of government. Our breadth and depth of process and technology expertise result in high-quality solutions that enable improved efficiency, integrated functionality, enterprise-wide visibility, and lower total cost of ownership.

We are committed to help you reach your goals, and our success is measured in terms of the success we help you achieve.

Client Focus

We bring an unmatched focus on the customer—listening to your business needs and delivering the right solutions that drive results to improve business performance. Our qualified consultants combine sound advice and product expertise for excellence in program management, systems implementation, and business processes.

Proven Results

Combining agility with discipline, we help clients streamline processes and effectively integrate workflow to enable the functionality needed to improve process efficiency, reduce costs, and meet regulatory compliance. Our solutions draw upon industry best practices and a proven approach that leverage the latest methodologies and advanced technologies to ensure project success.

Universal Consulting Services

(UCS) is a leading business process and technology solutions provider. Founded in 2000, UCS's core strength is its expert consultants with deep domain knowledge and skilled capabilities in the areas of business processes, program management, and systems implementation. We are a catalyst for improving business performance across all levels of government through our full spectrum of value-added enterprise solutions.
